PREPARATORY & LIQUID ACCESSORIES

NEW M PREP SPRAY

Preparatory liquid for nail and hand cleaning with a practical nozzle pump. When sprayed on the nails at the beginning of the treatment, it has a dehydrating and degreasing effect. Its degreasing effect also helps the nail form stick to the skin. Spray on nails before nail extensions as a dehydrating, cleansing prep liquid.

50 ml

M PREP

Dehydrator, degreaser liquid for preparing the natural nail plate. Wait for drying before you start working with other materials. (1st step)

10 ml

M PRIMER

For troubled nails (optional). Preparation liquid with acid in it. It helps with the cohesion and dehydrates the nail even in the deeper levels. Make sure that the product isn't contacts the skin. Wait for it to dry before using any other product!

10 ml

ACID FREE PRIMER

It helps to create a strong adhesion. Use it in a thin layer. It makes the surface a bit sticky, so you don't have to wait until it dries. You can use it under any material. If you use also the M Primer, this should be the 3. step.

10 ml

NAIL WIPES

Lint-free, fine woven wipe. It doesn't fluff.

1 box (100pcs)

VISION ACRYLGEL FLUID

This is an additional liquid, recommended for the MarilyNails Acryl-Gel product line. It makes shaping the Vision Acrylgel easier. The fluid is clear and has no smell.

50 ml

M CLEANSER

Effective cleanser liquid for gel polishes and gels. The result is a perfect and shiny surface. Use it with nail wipes.

BASE GELS & STRENGTHENERS

BASEFLOW

The base layer of GelFlow. It provides durability for nails up to 2-3 weeks. Soak-off. Curing time 2 minutes (UV), 1 minute (LED).

4 ml

7 ml

ARCHIBASE GEL

Extra strong base gel to make sure the nails won't lift. Use it under the builder gel to achieve the perfect adhesion. Soak-off. Curing time 2-3 minutes (UV), 1 minute (LED).

10 ml

FIBERFLOW HARDENER CLEAR

Strengthening base gel with extra-strong adhesion. Thanks to the synthetic silk fibers in it, it provides the longest adhesion even for weaker nails. Soak-off and also **recommended for C-curve strengthening**. Curing time 2 minutes (UV), 1 minute (LED).

4 ml

7 ml

FIBERFLOW HARDENER COVER

Strengthening and base gel for artificial nails and gel polishes in a pleasant cover shade with extra adhesion. It provides the longest grip ever also for thinner nails thanks to the synthetic silk fibers in the material. **Also recommended for C-arc reinforcement**. Soak-off. Curing time 3 minutes (UV), 1.5 minutes (LED).

7 ml

BASEFLOW PLUS

BLACK AND WHITE BASE GELS

The BaseFlow Plus Black and White shades are colored base gels. With their pigmented, black and white shades, they will be absolute favorites of your guests. With this material you can save a lot of time, as you can skip the application of the color layers! **Due to its strong pigmentation use it in 2 layers for C-curve strengthening**. Its texture is a little thicker compared to the clear BaseFlow, but softer compared to the colored Rubber Base. It does not generate heat during the curing time, so you can safely apply it even to your most sensitive guests. It leaves a sticky layer, so the surface is also suitable for the application of decorations. It can also be used for strengthening, it provides perfect adhesion for 2-3 weeks, it can be dissolved. Despite of its pigment saturation, it perfectly cures.

Curing time is 3 minutes in UV and 1.5 minutes in LED lamp.

COLORED BASE GELS

RUBBER BASE

COLORED BASE GEL

A revolutionary new, colored base gel that can be applied directly to prepared nails and can also be used for C-curve technique. It is not a gel polish color, but it can be used on its own for coloring. In this case, apply in 2 thin layers! Its outstanding flexibility has the characteristics of rubber. It is easy to spread and it has a strong adhesion. The material does not flow into the nailfolds and holds the desired curve well. Its surface is easily smoothed out even with a little help, and it perfectly fills the unevenness of the surface. It really speeds up the work because you can skip the application of the gel polish color. Its surface cures slightly sticky, we recommend the TopFlow Free product line as a top. It is more resistant to mechanical effects as it adapts well to the movements of the natural nail. Durable, yet extremely comfortable to wear. Curing time is 3 minutes in UV and 1.5 minutes in LED.

ARCHITECH – CLEARGEL

PROFESSIONAL TRANSPARENT BUILDER GEL SCENTED

Medium dense, water-clear builder gel, for salon work. Easy to handle, excellent bending, yellowing-free material with a pleasant citrus scent. Due to its massive consistency, it does not flow into the nailfolds during the work. The consistency of the material allows to make longer and extreme shaped nails.

Curing time 3 minutes (UV), 1-1,5 minutes (LED).
Bending time 20-25 sec (UV), 10-12 sec (LED).

ZEROFILE – CLEARGEL

EASY TO SPREAD TRANSPARENT BUILDER GEL

A builder gel for quick nail extension and filling with superstrong but flexible and easy to file properties. It is also a perfect choice for file-free techniques thanks to its easy spreading texture. It will be a favorite of your clients due to its low heat generation, as there is no burning sensation. For the ideal adhesion, use a base gel under the material. Curing time 2-3 minutes (UV), 1-1,5 minutes (LED). Bending time 20-25 sec (UV), 8-12 sec (LED).

NAIL BED EXTENSION GELS

NEW MOUSSE - COVERGEL

NAIL BED EXTENSION GEL WITH A SPECIAL TEXTURE AND COVER SHADE

Nail bed extension gel with a special texture and a beautiful natural cover shade. It has a thick but creamy consistency that softens and becomes easy to handle when you spread it with a brush. One of its most important properties is that it does not flow, making it ideal for both building and filling. It generates medium heat, cures hard and remains sufficiently flexible. It is resistant and hard to break. Thanks to its easy to handle texture you can save time with it and it also can be used without filing if applied thinly. When used in a thicker layer, it can be easily shaped, so even two nails can be created with it at the same time, even in the case of short or medium-length nails.

Curing time in UV 2-3 minutes, in LED 1 minute.

BUILDERGELS

NAIL BED EXTENSION GELS

ZEROFILE - COVERGEL

EASY SPREADING, HIGH PIGMENTED COVER BUILDER GEL

One of our most popular cover gels has been renewed. We created a more resistant material that makes your work easier. A super strong and flexible, easy to file builder gel for building and filling. It is an excellent French base, but it can also be used on its own. This CoverPink shade is suitable for all skin types. Due to its high pigmentation, less material is needed. Thanks to its easy-to-spread texture, it is a perfect choice for filing-free technique. For the ideal adhesion, use a base gel under this material!

The curing time is 2-3 minutes in UV, 1-2 minutes in LED lamp. The bending time is 20-25 seconds in UV, 8-10 seconds in LED lamp.

PINK AND WHITE BUILDER GELS

FRENCH - PINKGEL

SLIGHTLY COVERING PINK BUILDER GEL

Medium-dense builder gel for raising the nail bed or even for sculpting the whole nail. If you build the whole nail with this gel, you will get a pleasantly fresh, pink nail. Very strong, fast-curing gel; therefore, it should be used in a thinner layer or precured in the scattered light in front of the lamp to avoid the strong heat generation. Curing time 3 minutes (UV), 1-1.5 minutes (LED). Bending time 25-30 sec (UV), 10-12 sec (LED).

CAT EYE GALAXY

MAGNETIC REFLECTIVE GEL POLISH

Innovative new material that attracts the eye like a magnet! Each of the 4 galaxy-like shades is equipped with reflective glitters, already creating a breathtaking effect, but all this is enhanced by the fact that it can also be magnetized! Its characteristic colors, such as gold, purple, turquoise and pink, will surely be a huge guest favorite.

Curing time in UV is 3 minutes, in LED 1-1.5 minutes.

CAT EYE MAGNET – ALL IN ONE

DOUBLE-SIDED MAGNET

The most important accessory of our Cat Eye Galaxy gel polishes. Thanks to its design, you can create different patterns - either star-shaped or different S-shaped patterns. To achieve the best color effect magnetize the nails on four sides. Shape magnetization is recommended for a dominant reflective effect.

1 pc

If the micro beads are scattered, you can easily collect them with this magnet and put them back in their jar.

NEW CAT EYE VELVET

MAGNETIC GEL POLISH

Following the success of the Cat Eye Galaxy collection, the Cat Eye Velvet colors have arrived. The white magnetic glitters of the gel polish magnetized on several sides create a real velvety effect! For shape magnetization, use the All In One Cat Eye magnet. It gives a nice coverage on its own, but using a colored base (e.g. FiberFlow Hardener Cover or Rubber Base) you can achieve a more even look.

COLORGELS

FULLPIGMENT COLORGEL FREE

SUPERPIGMENTED COLOR GEL, NON-CLEANSING

Use superpigmented gels in 1 or 2 thin layers, depending on the effect you want to achieve. They fully cure, they do not need to be cleansed. Creamy texture, easy to handle. They are also perfect for decorations, gel paintings and even for full coverage.

Curing time 3 minutes (UV), 1,5 minutes (LED).

The nail set was made with Babyboomer - Milky Rose Gel and Frenchie - WhiteGel, painted with M0 Long brush. The top gel was TopFlow Free. By Sára Haraszti.

FRENCHIE - WHITEGEL

DAZZLINGLY WHITE, FLEXIBLE FRENCH GEL

Non-yellowing white gel, which makes the white French nails more even on any material. With this material the smile line will be even more precise and sharp. Soft, but at the same time stabile material, it does not flow by itself. It cures sticky, so it needs to be covered with a top gel. The curing time is 2-3 minutes in UV, 1-1.5 minutes in LED.

MN Info: Due to its pigmentation, use in thin a layer!

3 ml

For precise application, we recommend to use our M0 or M0 Long brush.

TRANSFERFOIL SET - SELECTION

TRANSFERFOIL SET

Transfer foils are one of the most popular decorative accessories these days, with which you can easily and quickly create uniquely styled nails for your guests. In our new transfer foil set we have selected patterns in which every guest can find their own style in every season. Whether it's different animal patterns, the popular marble pattern, butterflies, hearts or even a lace pattern, you can be sure that your guests will love them! You can save a lot of time with watercoloreffect flowers too, because instead of painting, you just need to use the foil! The transfer foil set contains 15 foils of different colors and effects, each 2.5x100 cm.

ART FOIL GEL

TRANSFERFOIL GEL

The newly developed transfer foil gel offers you quick and precise work for your decorations. The secret is in the density of the product. Its high density ensures great stickiness, it will not flow all over the nail. In case of using it on the complete surface, you can gently cover the nail with the foil. For creating abstract decorations and patterns you will need only 1-2 dots of gel. Apply the transfer foil with strong pressure movements on Art Foil Gel fixed for 30 seconds! The curing time may depend on the lamp!

4 ml

Even for decorating the whole nail surface!

NEW MYWAY TABLE LAMP

MarilyNails' new table lamp will be a fantastic companion in the salon!
In addition to the design, we have also put a lot of attention on the special functions. Thanks to the unique double headpiece, you can freely adjust the direction of the light at any angle, either spread or concentrated. You can also customise the colour temperature of the light to suit your work, so you get personalised outstanding illumination while you do the work you love.
You can take stunning photos and videos of your finished creations, because every angle and colour of light gives a different glow to the materials on your nails. And with reduced distortion, the amount of waviness in your videos is also reduced. (The amount of waviness will also depend on other light sources used in the room.)
The table lamp is easily foldable and portable in size, and its multifunctional holder allows it to be securely fixed to various surfaces.

MYWAY...because it's your way, use it and create according to your needs....
...make it yours...your WAY.

Features:

- power: 24 watts
- brightness: 1300 lumens
- built-in SMD LED light source
- 3 adjustable color temperatures (3200K: warm yellow, 4800K: daylight natural, 6500K: cool white)
- adjustable brightness (stepless and infinitely variable)
